

# FALCON ENDPOINT PROTECTION ENTERPRISE

Stop breaches with full endpoint protection

## BUILT TO STOP BREACHES

CrowdStrike Falcon® Endpoint Protection Enterprise sets the new standard in endpoint security with the first and only cloud-native security platform proven to stop breaches by unifying next-gen antivirus (NGAV), endpoint detection and response (EDR), managed threat hunting and integrated threat intelligence, in a single cloud-delivered agent.

## KEY PRODUCT CAPABILITIES

### AI-POWERED NGAV

- Protects against the entire spectrum without requiring daily updates
- Combines the best prevention technologies — machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to stop ransomware and fileless attacks
- Covers the gaps left by legacy AV and fully protects endpoints online and offline

### INTELLIGENT EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing unparalleled visibility, proactive threat hunting and forensic investigation
- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised systems

### 24/7 MANAGED THREAT HUNTING

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to ensure threats and high-priority alerts aren't missed
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives
- Guided response provides clarity on an attack, showing you what to do next

## KEY BENEFITS

Stops breaches and simplifies endpoint protection

Provides unparalleled real-time and historical visibility across endpoint events and activities

Accelerates investigation and remediation and ensures stealthy attacks don't go undetected 24/7

Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response

Shows you the big picture with CrowdScore, your enterprise threat score

FALCON ENDPOINT PROTECTION ENTERPRISE

DEVICE CONTROL

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

FIREWALL MANAGEMENT

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

INTEGRATED THREAT INTELLIGENCE

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection

ABOUT CROWDSTRIKE

CrowdStrike Holdings, Inc. (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: **We stop breaches.**

CLLOUD-NATIVE PLATFORM

Reduces cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations

Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation

Only CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity
